PROFESSIONAL SUMMARY

Recent Computer Science graduate with internship experience across full-stack web development and live website operations. Builds RESTful APIs and role-based data models with React, Node.js, Express, and Django, and has designed responsive front-end interfaces for personal full-stack projects. Comfortable working across local and remote teams, with a broad foundation in JavaScript and modern web tooling.

TECHNICAL SKILLS

Languages: JavaScript, Python, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Svelte, Vite

Backend & APIs: Node.js, Express.js, Django, REST APIs, JWT

Databases: MongoDB, PostgreSQL

Tools & Cloud: Git, GitHub, Postman, Vercel, Render, Cloudinary

PROFESSIONAL EXPERIENCE

Ouranos Labs — Lagos, Nigeria June 2025 – November 2025
Software Engineering Intern

- Contributed to ideation, validation, and implementation of an internal departmental reporting tool.
- Collaborated with senior engineers using Svelte, Tailwind CSS, Django, and MongoDB as requirements evolved.
- Adapted quickly to new tools and technologies, contributing to team problem-solving discussions.

GAO Tek Inc. — Remote July 2025 – September 2025
WordPress Developer Intern

- Developed and customized WordPress websites, including theming and third-party plugin integration.
- Applied responsive design practices across mobile and desktop for consistent usability.
- Gained hands-on front-end and back-end development exposure in a remote team setting.

Peniel Apartments — Abuja, Nigeria September 2026 – Present
Digital Support and Social Media Intern

- Perform routine website updates and manage digital assets, including landing page customization.
- Conduct usability testing and monitor performance analytics, documenting issues for bug tracking.
- Support technical SEO and day-to-day digital workflows alongside social media content management.

TECHNICAL PROJECTS

Learnova — Full-Stack Learning Management System

- Built a full-stack LMS (React, Node.js, Express) featuring a rule-based adaptive diagnostic testing engine.
- Designed a MongoDB schema with JWT-based role access control for students, instructors, and admins.
- Developed course management, quizzes, assignments, and an analytics dashboard with Tailwind CSS.

Rentra — Property Management Application

- Built a property management dashboard with React.js and Tailwind CSS for tenant and rent tracking.
- Developed a Node.js and Express REST API with MongoDB, JWT authentication, and Cloudinary integration.
- Implemented role-based access control to separate landlord and tenant views.

EDUCATION

Caleb University, Nigeria September 2022 – August 2026
B.Sc. Computer Science — Second Class Upper Honors

CERTIFICATIONS

Artificial Intelligence Fundamentals — IBM (2025) | Automate AI Solutions on Cisco Infrastructure (DCAIAA) — Cisco (2025) | Full-Stack Web Development Bootcamp — Udemy (2025)
